

Loops

CSCI 10 - Santa Clara University - Fall 2016
Michael J. Bannister

Turn in Homework 01

Example 04

- Example with boolean expressions
(code is available on course webpage)

Example 05

- Repeating calculations with **while**
(code is available on course webpage)

Example 06

- Loop **n** times with **while** loops and **for** loops
(code is available on course webpage)

Example 07

- Using loops to plan for retirement
(code is available on course webpage)
