Call-by-Reference

CSCI 10 - Santa Clara University - Fall 2016
Michael J. Bannister

Announcements

- Homework 4: due Friday

Example 18

- The **void** return type: functions return nothing!

Example 19

- We can give functions permission to modify their arguments, but should we?

Example 20

- More examples of using "output" parameters.

Example 21

- Overloaded functions: same name different arguments.
